Spring Cleaning with Limoneira Citrus

Limoneira Spokesperson Megan Roosevelt makes spring cleaning easy with the help of citrus

(Santa Paula, CA) – With the first day of spring on the horizon, spring cleaning (with Limoneira lemons, of course) is the name of the game. Lemons are a key component to any natural cleaner, due to their high levels of citric acid, low pH and their anti-bacterial properties. Plus – they're easy on the nose! Don't forget to subscribe – videos with more wonderful recipes, tips and tricks not detailed in this release will be added to the channel each Friday throughout the month. For more details on the tips below, watch this video on the Limoneira channel [here](#).

Limoneira has also partnered with additional global chefs and mixologists, nutritionists, and beauty lifestyle and green cleaning experts to share their knowledge with the customers of our grocery and food service partners around the world. Their biographies can be found on [Limoneira's website](#).

Lemon Cleanser – A simple mixture of lemon juice, water, and sometimes vinegar can clean a variety of household items.

DO use on:

- Wood
- Laminate
- Glass
- Ceramic
- Tile & Laundry
- Real Brass

Do NOT use on:

- Natural stone
- Brass plated

Example: Cleaning a tea kettle! Upon repeated use, cooking appliances and containers can develop mineral deposits at the bottom, which can effect performance and eventually burn, thus flaking off into the contents of the kettle/pot/etc. Luckily, lemons provide a simple solution – just combine ¼ cup of fresh lemon juice and 2 cups of water inside the kettle or pot

in question. Measurements do not have to be exact. Bring contents to a boil and let sit for 1–2 hours. Rinse and scrub with bottle brush if necessary.

Each month, Megan will be featuring another wonderful facet of citrus living, with weekly videos full of recipes, DIY tips and other ways to use Limoneira citrus. Subscribe to [Limoneira's Youtube channel](#) for more information on the many ways this endlessly versatile fruit can improve life inside the home and beyond.
